ServTronics Quality Statement Concerning RoHS  
EU Directive RoHS 2002/95/EC (Restriction of the use of certain hazardous substances)

The following materials are RoHS compliant and do not need compliance certification.  
Stainless Steel, Un-plated steel, Nylon, Ceramic, Brass and Phosphorus Bronze.

Any other materials supplied by ServTronics are Non-Compliant unless specified in the part number or description. The letter "R" will be placed on the end of our fastener part number and the description will state RoHS compliant on the packing slip. Those products that are purchased and supplied by a manufacturer's part number will adhere to the manufacturer's policy for identification and certification.
